

CodeRED Message from Mayor Jay Donecker Regarding COVID-19 – June 14, 2020

Hello Reidsville citizens, this is Mayor Jay Donecker calling you with our twice-monthly COVID-19 update. As of now, Rockingham County has had at least 130 positive testing results for COVID-19. This includes 2 deaths and 4 hospitalized patients.

Within our County, additional health care operated COVID-19 testing sites have been opened to compliment Cone Health's location across from Annie Penn Hospital. It is also reported that some CVS stores are providing testing. The increased testing will see our County's positive cases increase, but we should not become complacent that it is occurring for that reason only. Increases in positive cases could also be a result of community spread via more interaction in Phase 2 of the re-opening of our State, along with unregulated or unauthorized mass gatherings. We must remain diligent in our daily activities to keep our friends and family safe. Social distancing and wearing a face mask still remain critically important.

Finally, there are new online tools to help people know if they should consider being testing for COVID-19 and to find a nearby testing place. They are:

- Check My Symptoms at www.ncdhhs.gov/symptoms
- Find My Testing Place at www.ncdhhs.gov/TestingPlace

Please expect another call on Sunday, June 28th. And always remember, we are Team Reidsville and we will get through this together.
